

Maintain Strict

Accountability

“Every year, Assessment departments have the critical task of manually tracking thousands of test booklets. This solution will help automate what was historically a labor intensive process while helping to ensure accountability for high-stakes items.”

Automate the Process of Tracking Test Booklets

As the number of state mandated tests increases, Assessment Departments are faced with the critical task of maintaining strict accountability for thousands of testing booklets.

Save time and reduce costs with iTrackSTAAR- an online test booklet tracking system designed specifically to meet the needs of Texas school districts. The system is web-based so there is no need to install software on individual computers. Best of all, you can monitor the location & status of all items without ever leaving your desk.

Call and schedule a free demo today!

iTrackSTAAR will help automate the process of tracking test booklets and reduce the number of hours your personnel spend on maintaining accountability of high-stakes items.

With iTrackSTAAR you can-

- Upload & Expand Test Booklet Security Number Lists
- Append Lists
- Scan Booklet Security Numbers
- Track Booklets Online
- View Historical Record of Scans
- Auto-Populate Control Forms
